

## INFORMATION SHEET SPRAYING

---

### Safe and Efficient Spraying Techniques

- Purpose built 5m covered boom capable of liquid fertiliser and turf colouring applications
- ATV bikes complete with 100 litre spraying units and 4m booms
- Hand reels with shrouded nozzles
- Various hand spraying applications such as backpack sprayers complete with nozzle cones

Comprehensive spraying programmes can be developed to suit your needs. Detailed spray records are provided for each site serviced, along with appropriate Safe Work Method Statements. All our operators hold ChemCert accreditation.

The Green Horticultural Group complies fully with all WHS and Environmental legislation.
